

Mannings Mixer

Calvin Campbell

Manning's Mixer was written by Nita and Manning Smith. It is danced to the music of **In The Good Old Summertime**. The version I use is a Lloyd Shaw Foundation recording. You can listen to the music by [clicking here](#).

This mixer is rather unique because the progress from partner to partner is done in a wrong way **Right & Left Grand**. Here is a video from YouTube. [Click here](#).

The Lloyd Shaw Foundation also has very nice downloadable written instructions. [Click here](#) for the pdf file. I also included this dance in the 23 mixers published in **Dancing For Busy People**.

As with most mixers, this dance routine will work well with many other recordings. However, I find that generally the original music really gets the people singing during the wrong way **Right & Left Grand**.
